

Hyundai South Africa - Going the Extra Mile - These people really back up their product!

In December 2014, we bought 2 identical trucks from Hyundai Strydom Park. We weren't even planning to buy any more trucks at that stage, but Wiseman - the salesman - cold called us because he'd seen one of our other trucks come in for a service. He gave us such a great deal, we ended up buying not one, but two additional trucks.

The one truck was great from the get go, but the other one gave us hassles pretty much from week one. After several visits to the work shop, and about six months - and tens of thousands of kilometres - down the line, Jean (head of commercial sales at the Strydom Park branch) got Mr Chris Smith - general manager for Hyundai Trucks SA - involved, and it was decided to just drop a brand new engine into our truck. How's that for service?

Thank you for supporting your product gentlemen!
